

# at SVL Training

SVL Training offer a range of courses that prepare attendees for the challenges facing commercial and residential AV professionals everyday.

In this document, we have outlined the Crestron training pathway for several key roles in the AV industry. Whether you are a programmer, designer or sales person, we have the right courses for you.

Key:

- The order to which each person should complete the Crestron courses, is numerically listed.
- Numbers with an asterisk represent courses that we recommend you attend, but they are not compulsory.

Please Note:

- If you are new to Crestron, you must first complete 2 online courses before attending any face-to-face courses.
- In order to do these online courses you need a Crestron Customer Number and then you can create your own Crestron Account. For more information on this process, please contact [mylogin@crestron.com.au](mailto:mylogin@crestron.com.au) or speak to your local Branch.

For more information or assistance please contact the SVL Training Team at [training@hillssvl.com.au](mailto:training@hillssvl.com.au).
